Dear Patient,

We hope you are well and staying safe in the unusual times we are in at the moment.

During the Covid-19 pandemic we have delivered medicines to many of our patients with the amazing help of some lovely volunteers.

Now, as things slowly return to normal and the volunteers have had to return to work and university, we are left with our usual drivers, who, as fantastic as they are, can't deliver the volume we have!

While we continue to offer a delivery service to our most vulnerable and house bound patients, we cannot continue to deliver to everyone. This is where we ask for your help. So that we can continue this free service, which is so valuable to many of our patients, we ask that if we are currently delivering to you and you are able to collect or you have a representative who can collect on your behalf then could you please get in touch with us.

We are observing social distancing measures outside of the pharmacy and are now running a free text messaging service. If you provide us with a mobile number we can text as soon as your prescription is ready.

If you do not have a mobile phone number or are still requiring the delivery service we ask you to allow us a full 7 days from ordering your prescription to coming in to collect it or having it delivered.

Please could you contact us so that we can update our records accordingly and again we thank you all for your continued support, patience, and understanding at this busy time.

Toby and Team
